- Powered By Fresh Air UV

Kills Microbes & Neutralizes Odors/VOCs

Advanced ERV/HRV Air Treatment System

Specifications

Capacity	4,000 sq/ft
Dimensions	8" tall x 16" wide x 17" deep
Power	20-277 VAC, 50/60 Hz, 0.51 Amps/120V Thru 0.22Amps/277V
Pressure Drop	0.061 "W.C (Testing documentation can be provided on request)
Installation method	Supply air side of HRV/ERV unit, 6" round duct ports
Line Cord	7.5" cord, 3-prong. (May be removed for hard wired connection)
Reaction Chamber	LifetimeV-TwinEverCarbonMatrix™w/ anti-microbial coating
Status Indicator	LED- Smart notification
UV wavelenght in nanometers	254 mn
UV Lamp length	15"
Lamp change out	24,000 hours
Lamp warranty	3 years
System warranty	Lifetime
Access to internal	front plate, 4 screws
Construction	Steel Powder coat paint (dark blue)
Certifications	UL2998 Validated for zero-ozone emissions
Lamp (part number)	TUVL-315 (Fresh-Aire UV)
Total shipped weight	10.6 lbs
